RFQ+ FOR DEALERS

LTX RFQ+

Bringing pre-trade intelligence and liquidity aggregation to the traditional RFQ process

LTX is a data-driven electronic trading platform that helps corporate bond market participants trade smarter, combining patented artificial intelligence with powerful execution capabilities to improve liquidity and efficiency.

LTX's low-cost RFQ+ protocol offers AI-powered dealer-client engagement and liquidity aggregation capabilities to further electrify larger size trades.

DATA-DRIVEN DEALER-CLIENT ENGAGEMENT

Increase relevant opportunities from your customers with data-informed RFQs.

ENABLING MORE DEALER-CENTRIC TRADING

- LTX never competes with dealers and does not offer all-to-all trading
- On LTX you trade directly with your customers, fully disclosed

Features	Benefits
Liquidity Cloud: Network of anonymous real-time buy- and sell-side indications of interest. Contribute your positions/axes to the Liquidity Cloud® to signal pre-trade liquidity to your customers.	<ul style="list-style-type: none"> • Receive pre-trade signals of client interest • Highlight immediate client trading opportunities • Facilitate focused activity between sales and clients • Reduce spam based on your axes and positions
Similar Bond analysis: Patented bond similarity technology identifies bonds with similar characteristics.	<ul style="list-style-type: none"> • Increase relevant RFQ activity based on axes, positions, and activity • Expand distribution of your positions and axes
Dealer Selection Scores: Used by buy-side clients to optimize the number of dealers for each RFQ. Based on dealer's real-time and historical Liquidity Cloud inputs as well as pricing and platform behavior.	<ul style="list-style-type: none"> • Leverage real-time axe distribution embedded in clients' pre-trade tickets • Increase potential for exclusive non-competitive order flow • Receive higher-touch orders due to reduced information leakage

PATENTED LIQUIDITY AGGREGATION TECHNOLOGY

Increase your optionality to transact in larger size trades for your desired amount.

Features	Benefits
Patented liquidity aggregation technology	<ul style="list-style-type: none"> • Increase your RFQ participation with your optimal size • Increase flexibility to show up for your clients with partial responses and enhance client relationships - no longer "all or none" • Buy-side initiators are equipped with data to instill confidence in launching larger tickets
Seamless, familiar workflow	<ul style="list-style-type: none"> • Standard RFQ workflow
Dutch protocol option	<ul style="list-style-type: none"> • Allows for a single clearing level when liquidity is aggregated across multiple responders
