

BondGPT Intelligence

Integrating powerful GenAI capabilities directly within LTX trading platform workflows

BondGPT Intelligence leverages our award-winning BondGPT application to deliver actionable intelligence directly into trading and investing workflows at the moment users need these critical insights.

By anticipating users' needs, BondGPT Intelligence proactively puts key insights at traders' fingertips right inside the trading platform. The capability anticipates critical questions in real time and provides immediate access to a wide range of market data and insights, supporting faster, more confident decision-making without disrupting the trading workflow.

How it works:

The new functionality intelligently anticipates users' queries based on exactly where they are in the investing and trading workflow. BondGPT Intelligence anticipates the answers users are looking for, instantly delivering contextual insights from BondGPT in the form of in-platform pop-ups at key points in their workflow:

- Watchlist
- Trade Ticket
- Trade Blotter

Benefits:

- Save time without the need to switch applications or even manually type in your question
- Receive proactive insights based on where you are in your workflow
- Customize the depth and types of insights BondGPT provides at different points of your workflow, ensuring you get the information that matters most to you exactly when you need it
- Leverage GenAI to enhance productivity without disrupting trading and investing workflows

BondGPT Intelligence integrates practical, sophisticated AI capabilities into every phase of the trading workflow, from bond and liquidity discovery to counterparty selection, execution, and post trade analysis, unlocking the true potential of AI in modern trading.
