# Ask BondGPT

WHAT IS BONDGPT?

BondGPT is LTX's GenAI-powered application that answers complex bond-related questions in seconds. It uses a large language model (LLM) together with a range of commercially available data, proprietary data, and analytical models to quickly respond to bond-related questions, simplifying workflows and driving efficiency.

BONDGPT RESPONSE FEATURES

- **Data Table:** BondGPT responds to the question with a data table that incorporates a range of details including real-time liquidity data.
- **Charting:** Dynamic charting allows the user to change the X and Y axes.
- **Export:** Data can be easily exported into an Excel file.
- **Show Your Work:** The patent-pending technology behind the "Show Your Work" explainable AI feature provides a detailed breakdown of how the response was generated.

Show me technology bonds rated BBB+ or better with a spread greater than 100 and a dollar price lower than 90 in a 30-year tenor.

Cloud Match Scores indicate real-time natural contra interest for a bond based on LTX's analysis of the Liquidity Cloud.
